IDS Makes Fourth Appearance on HW TECH100

SALT LAKE CITY, March 1, 2017 — Mortgage document preparation vendor International Document Services, Inc. (IDS), announced it has been named to the 2017 HW TECH100™ list published by mortgage industry trade magazine *HousingWire*. IDS was part of the inaugural TECH100 list in 2014, and 2017 marks the fourth consecutive year IDS has made the list.

“With all the activity occurring in the mortgage technology world, it is especially gratifying to be included on this year’s HW TECH100,” said Mark Mackey, vice president of IDS. “We’ve made significant strides over the past year to deliver more comprehensive digital mortgage solutions to the industry and stand ready to support our customers as they make the transition to a completely electronic origination process.”

“The companies that make up the 2017 HW TECH100 are the cream of the crop of the entire housing industry, from real estate to mortgage lending, servicing, and investment,” said *HousingWire* Senior Financial Reporter Ben Lane. “These companies aren’t just taking part in the housing industry’s technological revolution; they’re leading it.”

The HW TECH100 recognizes the top 100 fintech companies that are driving housing technology innovation. *HousingWire* editors noted the September 2016 acquisition of eMortgage services provider Encomia as one of the reasons for including IDS on this year’s list.

“The companies in the 2017 HW TECH100 cover the entire mortgage finance spectrum. There’s hardly a corner of our industry that hasn’t been transformed in some way, either by fintech startups focusing on a specific software need or legacy companies evolving to compete in the new environment,” said *HousingWire* Magazine Editor Sarah Wheeler. “Now more than ever, these companies are delivering the innovation this industry needs to do its most important job: supporting the American Dream.”
